DETAILED ACTION

Claim Rejections - 35 USC § 112

1. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

2. Claims 1-7 are rejected under 35 U.S.C. 112, first paragraph, as containing subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. The specification as originally filed fails to provide support for an absorbent article with a topsheet, backsheet and core and further comprising three extra layers, 1) a layer containing a skin-protective ingredient, 2) a support layer and 3) an ingredient-containing layer, the specification only has support for two extra layers 1) a layer containing a skin-protective ingredient and 2) a support layer.

3. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

4. With respect to Claim 5: the phrase "VASELINETM" is indefinite, the trademark identifies the source of the product, not the actual product itself, therefore it is unclear what the applicant is claiming, the examiner suggest replacing the word VASELINE with petroleum jelly.
5. Claim 6 recites the limitation "the two layers" in line 2. There is insufficient antecedent basis for this limitation in the claim.
6. With respect to Claim 7: the phrase "and layer and support layer" is indefinite. This phrase is grammatically incorrect, and it is unclear what this is trying to claim. Also the word

“layer” alone is indefinite, is this the layer containing the skin-protective ingredient, the support layer or the ingredient-containing layer?

Response to Amendment

7. In fixing most of the 112 2nd paragraph problems, the applicant has created more 112 rejections as well as specification objections, see above.

Conclusion

8. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
